LITHIUM POWER STRENGTHENS EXPLORATION TEAM

- **LPI adds further depth to exploration and technical team with the appointment of experienced lithium hard rock geologist Mr. Stuart Peterson**
- **Mr. Peterson was previously Senior Geologist for Mineral Resources Limited (MIN.AX) at the Mt Marion lithium project in Western Australia**
- **LPI's near-term focus is on the commencement of strategic exploration programs at its key project areas in Western Australia and Argentina**

Lithium Power International Limited ("LPI" or "the Company") is pleased to advise that it has strengthened its exploration team with the appointment of Mr. Stuart Peterson as full time exploration manager for the Company's Pilbara and Greenbushes lithium hard rock portfolio in Western Australia.

Mr. Peterson, (Bsc) Majoring in Earth Science, has gained significant lithium experience working with Mineral Resources Limited (MIN.AX) in the position of Senior Geologist at the Mt Marion Lithium Project in Western Australia, where he was responsible for all current near mine extensional drilling programs in lithium hosted pegmatite deposits. (Spodumene/Kunzite) and database development.

Lithium Power International Chief Executive Officer, Martin Holland, commented: "We are pleased to welcome Mr. Peterson to the Lithium Power exploration team. Mr. Peterson is an experienced lithium specialist, who will play a key role in unlocking the underlying value from our Western Australian lithium assets."
